REFLECTION IS GOOD FOR YOUR

Lets act now, but think first.

As the saying goes, there is no better time to act, than now. It is often the case we are caught up in everyday routine, so much so that, we tend to forget how meaningful it is to stop and ponder on our lives.

Especially in the education profession, the challenges teachers face are often overwhleming and can take their toll on family life, similar to other professions of course.

Taking a step back, to recollect your thoughts, is a good strategy, even when teaching. We recommend reading on self-efficacy in the teacher profession, to consider how you can incorporate it in your everyday instruction.

MAS HUB

Choose to connect with others.

Joining a community of dedicated practitioners and making use of a forum and learning space like the MAS Hub, allows to share and discuss the experiences gained and offer mutual support.

Ongoing call for MAS Mentors:

MAS Mentor: An educator who acts as a mentor to retrieve teacher mentors based on the subject/grade etc.

Contact us [here](#) for details.

RE-IMAGINING MUSEUM-SCHOOL PARTNERSHIPS
